

2021 PRESS RELEASE

New Generation Singers:

For Immediate release:

The New Generation Singers are touring again, presenting their unique performance through sermon and song.

This group of high school and college age young people have taken their message to audiences in every continental state, and most of the Canadian Provinces, during their 50 years of touring.

Founded as a youth choir in 1970, they have evolved into an internationally recognized multi-talented group representing many denominations and beliefs using music as a vehicle to spread God's message.

While the Singers have performed primarily in churches, they have also performed in non-church venues such as the Statue of Liberty, Liberty Park, the Nation's Capital, in Washington D.C., earning a mention in the Congressional Record, the Upper Room, the Chapel of West Point, and for Parents Day entertaining an audience of 5,000. While performing at Lake Chautauqua, NY at the annual Chautauqua International Institute, the Singers met Dr. Norman Vincent Peale which led to many performances for Guidepost. Another performance highlight was with the Harlem Gospel Choir of New York City.

This year's tour will have the Singers in churches across the states of Missouri, Illinois, Ohio, and Pennsylvania.

While in your community the Singers will be performing at the \_\_\_\_\_(church)\_\_\_\_\_ (address) on \_\_\_\_\_(Day/date)\_\_\_\_\_ (time)

Come hear this energetic and meaningful message presented by a group of talented young singers. All are welcome!

New Generation Singers – 3002 Miller Rd. – St. Joseph, MO – 64506 cell: 816-646-1292
